

# CINO GAMES

## whitepaper

### MISSION STATEMENT

Our mission is to revolutionize the online gaming and gambling industries by assimilating decentralized finance and putting profits in the hands of our users.

### CONCEPT

A decentralized casino operating on the \$CINO token. Users can participate in games, or for the first time in history, holders can opt to 'Be the House'.

### MARKETS

Crypto gaming is the fastest growing industry in the world. Gambling is one of the oldest existing industries. Mobile and computer gaming are at all time highs and continue to grow.

### WEALTH GENERATION

\$CINO holders and investors are participants in the largest relocation and generation of wealth in recorded history. Cinogames merges the newest technology with one of the most accessible industries in the world.

### VALUE OF CRYPTO ASSETS

The blockchain offers us unparalleled security, transparency, and growth.

### FUNCTIONALITY

The \$CINO token functions as our in-world currency. Players can use it to gamble, play games, purchase NFTs or stake their tokens to the liquidity pool and 'Be the House'.

### FORECASTS

We are building a cosmic Meta-Vegas with more ways to invest and/or play to earn than ever before.

## FLOW OF \$CINO

## \$CINO STAKEHOLDERS

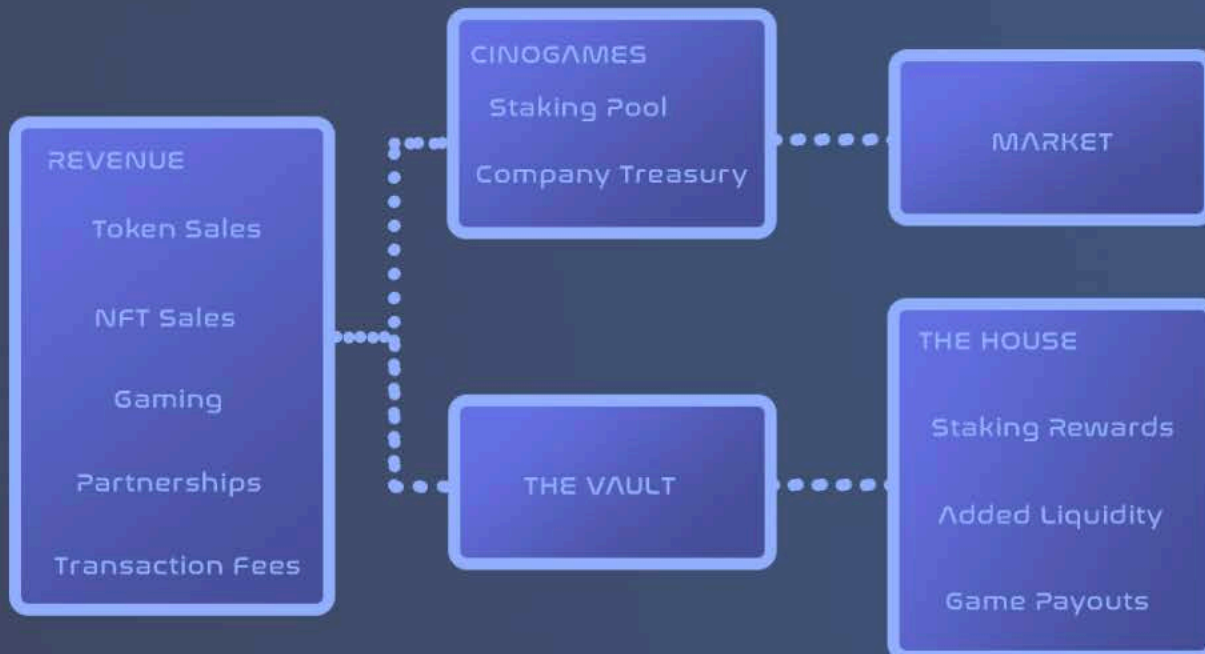

We have developed a dual Stakeholders approach to ensure that the success of Cinogames accrues value towards the \$CINO token across multiple chains and networks. We have deployed an array of smart contracts and have delegated token supply to provide support to the ecosystem.

1 • **THE VAULT** : Designed to provide yield and value to token holders. Through staking \$CINO tokens in the vault, holders will provide additional liquidity to the vault/house pool, in-turn giving every day people the opportunity to **BE THE HOUSE!** By staking, users will be providing liquidity to the casino in \$CINO tokens. They will receive LP tokens in return. The \$CINO value of these LP tokens will increase and decrease as games are won and lost respectively. 70 percent of gross operating profits from the casino will be distributed to all LP token holders - creating a community profiting machine. **BE THE HOUSE!**

2 • **COMPANY TREASURY** : represents \$CINO that is owned by the company. The proceeds of sales from company assets will be sold back to the market to pay operational expenses, expand our team and provide continuous development of our metaverse.

## \$CINO REVENUE STREAMS

TOKEN SALES	\$CINO has two native tokens on the ERC and BSC networks respectively. As liquidity pools continue to grow we will migrate to additional chains and networks.
COMPANY NFT SALES	50% transferred to The Vault with a lock up period of 6 months.
GAMING	70% of profits from our gaming platform will be distributed to holders staked in the Vault. The remaining 30% will be used to continuously grow our liquidity pools and the advancement and development of future games.
TRANSACTION FEES	Transaction fees are currently at 10% on buys and 15% sells, we have implemented technology into our contract that allows us to adjust tax rates as needed. These taxes are used for marketing, product development and operations.
PARTNERSHIPS	Strategic brand partnerships and alliances with industry leaders.

<p style="text-align: center;"><b>SECURE</b></p> <ul style="list-style-type: none"> <li>• Blockchains' record keeping ability makes fraud nearly impossible</li> </ul>	<p style="text-align: center;"><b>INSECURE</b></p> <ul style="list-style-type: none"> <li>• Server based transactions</li> <li>• High possibility of fraud with a 13% average</li> </ul>
<p style="text-align: center;"><b>DAO OWNERSHIP</b></p> <ul style="list-style-type: none"> <li>• Owners of tokens participate in building the metaverse</li> <li>• No single controlling agency</li> </ul>	<p style="text-align: center;"><b>PRIVATE OWNERSHIP</b></p> <ul style="list-style-type: none"> <li>• Players have no control of environment</li> <li>• Owned by a single entity</li> </ul>

## MARKET OVERVIEW

The current gaming market presents favorable conditions that offer Cinogames a unique opportunity to exploit both the defi space and the casino industry. The opportunity to shift power and earning potential into the hands of players and holders within the growing online gambling market will add significant value to their gaming experience.

The mobile segment, which is one of Cinogames target platforms, is projected to gain momentum and exhibit a compounded annual growth rate (CAGR) of 7.3% over the coming years, owing to increased smartphone penetration across the globe.

The online segment is estimated to witness substantial growth over the next eight years, expanding at a CAGR of 8.6% from 2020 to 2025. This can be attributed to increasing broadband penetration and growing online betting, gambling, and social network gaming.

The casino and online gambling sector worldwide was estimated at roughly 265 billion U.S. dollars in 2019.

The global metaverse market size is expected to reach USD 872.35 Billion in 2028, registering a revenue CAGR of 44.1% during the forecast period, according to a latest report by Reports and Data.

## ROADMAP

### PHASE 1

- ICO on Ethereum
- ETH Smart Contracts
- ETH Staking Launch
- Strategic Partnerships

### PHASE 2

- Native BSC Token
- ERC - BSC Bridge
- Smart Contract Testing on Cardano
- Cardano Dex Listing
- Expand To Additional Smart Chains and Dex's

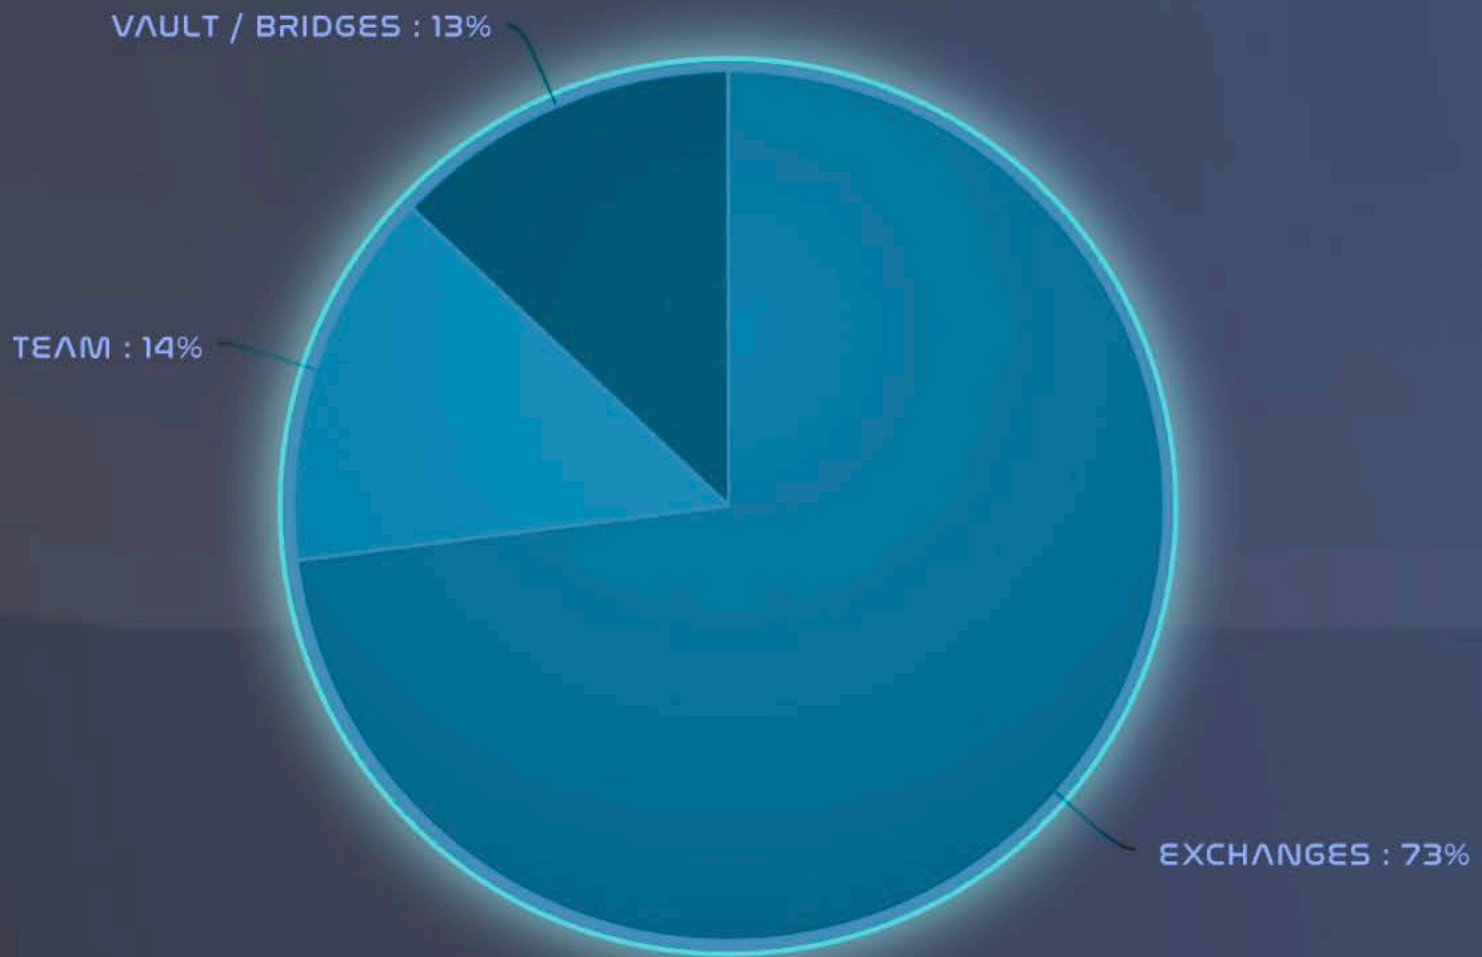

### PHASE 3

- Acquire Entity in Curaçao
- Obtain Gaming License Through Entity
- Launch Cinogames Web Interface
- Establish Liquidity Pools For Gambling Integration

### PHASE 4

- Metaverse Integration
- NFT Marketplace
- \$CINO Wallet Release
- In Game Avatar Development

# TOKEN DISTRIBUTION

There are 70 billion \$CINO tokens total - 7b to founders and advisors - 63b circulating on bridges & exchanges  
Taxes are used to incentivise growth, marketing, development and will grow the liquidity pool naturally.

## GROWTH MODEL AND KPI's

The key factors of success for building a community derived gambling metaverse consist of guaranteeing organic growth of games, players and holders in our ecosystem. We have identified several key variables that will be incentivised through strategic marketing and promotions to ensure the continued growth of Cinogames.

- Player growth rate
- Holder growth rate
- NFT launches and events
- Asset price growth
- NFT ownership of games within the ecosystem
- Oracles and VRFs
- New assets created by devs
- Security
- NFT Virtual Real Estate
- Inflation rate of Virtual assets
- Price of \$CINO accross Smart Chains
- True and fair gaming
- Development of new gambling sectors, i.e. e-sports
- Community influenced game development
- High stakes table broadcasts
- Ability to gamble using NFTs

While the total supply of \$CINO is fixed, the initial amount of \$CINO offered to the ecosystem will be limited accross chains to provide a scarcity effect due to the following factors:

- The growing number of holders and players that will eventually reduce the amount of \$CINO available for individual purchase
- Staking option which increases the time holding \$CINO and adds value to the vault.
- Arbitrage accross chains through our bridge contract, hosted by OKLG/Moontography.

## TECHNOLOGY

- Cinogames uses blockchain technology as the backend of our services, which ensures security and transparency for our users and investors.
- The \$CINO token itself will be available on multiple chains with bridges facilitating the transfer of the token accross chains.
- \$CINO is currently available on the Binance Smart Chain and the Ethereum Mainnet.
- The technology for the casino will be initially hosted on the Binance Smart Chain.

Why use the Binance Smart Chain?

- Lower Fees : BSC offers extremely low fees for users looking to provide liquidity to the Casino's Liquidity Pool or for users to add funds to their Cinogames account which will allows them to play our wide selection of games
- Binace smart chain has very quick transaction speeds and will allow for high throughput on transactions to and from our liquidity pools and account contracts.

Oracles will allow us the ability to see the price of our token in realtime accross multiple networks, which in turn allows us to price games effectively using \$CINO tokens. e.g. \$10 \$100 \$1000 price points will be converted into \$CINO tokens by oracles.

## IN-ECOSYSTEM TRANSACTIONS

Utilizing the \$CINO token, Cinogames is aimed at onboarding non-crypto users with a seamless user experience. Users will be able to interact within the ecosystem without prior experience with cryptocurrencies.

## THE TEAM

### • JACOB MCLENNAN, COO - FOUNDER

McLennan has been a major player in the crypto space since 2017. He has been a part of multiple tech startups, including cryptocurrencies, health and human services, DOD technologies, and E-commerce. He previously spent 10 years as an electrical engineer working for high profile clients such as NASA, The Department of Defense, and Lockheed Martin. McLennan specializes in research and development in emerging technologies for the military and private sectors.

### • RICH GAUTEREAUX, CTO - CO-FOUNDER

Gautereaux has been developing software and architecting scalable software solutions for the better part of a decade. He discovered a passion for coding early in life, which led him to pursue an education in Full Stack Software Development at an accelerator program in San Francisco at the age of 19. Gautereaux proceeded to create multiple large-scale social media apps. He singlehandedly spearheaded the entire architecture of the applications. With a strong foundation in Backend Development and System Architecture he ensures that Cinogames has the most robust and expansive architecture while keeping the security of our users at the forefront.

### • HUNTER CULBERSON, CMO - CO-FOUNDER

Culberson earned his B.F.A. in Digital Media from Otis College of Art and Design in 2018, where he now teaches. He currently works as a designer, artist and entrepreneur. Additionally, he has conceived, launched and sold several start-up companies focused on eco-friendly, sustainable design solutions. Culberson works with a myriad of charitable foundations to produce community driven art works throughout Los Angeles. Select clients include; Elon Musk, Adidas, The Los Angeles Music Center, and the Los Angeles Department of Arts and Culture.

## \$CINO FOUNDATION AND CHARITABLE CONTRIBUTIONS

We at Cinogames believe in giving back to the community and building strong relationships with aligned charitable organizations. As we continue development of our own in-house foundation, we will be donating a percentage of profits to various entities who focus on Mental Health.

## CONCLUSION

The Cinogames platform allows holders and investors the unique opportunity to own and govern within the Cinogames ecosystem, disrupting traditional models of gambling and gaming.

Our dedicated and experienced team is building a unique and profitable way to play. Cinogames is, without a shadow of exaggeration, on the cutting edge of web3 game development.
